CONTENTS OF VOLUME 367

October 1985

CAINE A.C., LUMBERS Eugenie R. & REID I.A. The effects and interactions of angiotensin and vasopressin on the heart of unanaesthetized sheep. 1

DELOOF Sylvie & ROUSSEAU J.P. Neural control of electrical gastric activity in response to inflation of the antrum in the rabbit. 13

AARONSON Philip I. & JONES Allan W. Calcium regulation of potassium fluxes in rabbit aorta during activation by noradrenaline or high potassium medium. 27

GANDEVIA S.C. & MCKENZIE D.K. Activation of the human diaphragm during maximal static efforts. 45

ITO Yushi & KIMOTO Yasusuke The neural and non-neural mechanisms involved in urethral activity in rabbits. 57

ADRIEN J., BLANC G., BUISSERET P., FRÉGNAC Y., GARY-BOBO E., IMBERT M., TASSIN J.P. & TROTTER Y. Noradrenaline and functional plasticity in kitten visual cortex: a re-examination. 73

LUKASIEWICZ Peter D. & MCREYNOLDS John S. Synaptic transmission at *N*-methyl-D-aspartate receptors in the proximal retina of the mudpuppy. 99

MARTY Alain & NEHER Erwin Potassium channels in cultured bovine adrenal chromaffin cells. 117

AUGUSTINE George J., CHARLTON Milton P. & SMITH Stephen J. Calcium entry into voltage-clamped presynaptic terminals of squid. 143

AUGUSTINE George J., CHARLTON Milton P. & SMITH Stephen J. Calcium entry and transmitter release at voltage-clamped nerve terminals of squid. 163

BODOIA R.D. & DETWILER P.B. Patch-clamp recordings of the light-sensitive dark noise in retinal rods from the lizard and frog. 183

FERSTER David & LINDSTRÖM Sivert Augmenting responses evoked in area 17 of the cat by intracortical axon collaterals of cortico-geniculate cells. 217

FERSTER David & LINDSTRÖM Sivert Synaptic excitation of neurones in area 17 of the cat by intracortical axon collaterals of cortico-geniculate cells. 233

BLESSING W.W. & WILLOUGHBY J.O. Inhibiting the rabbit caudal ventrolateral medulla prevents baroreceptor-initiated secretion of vasopressin. 253

HOSOI Shigeru & SLAYMAN Clifford L. Membrane voltage, resistance, and channel switching in isolated mouse fibroblasts (L cells): a patch-electrode analysis. 267

KORT Arthur A., LAKATTA Edward G., MARBAN Eduardo, STERN Michael D. & WIER W. Gil Fluctuations in intracellular calcium concentration and their effect on tonic tension in canine cardiac Purkinje fibres. 291

ARMSTRONG D.M. & DREW T. Electromyographic responses evoked in muscles of the forelimb by intracortical stimulation in the cat. 309

ARMSTRONG D.M. & DREW T. Forelimb electromyographic responses to motor cortex stimulation during locomotion in the cat. 327

Bull Judith S., Grundy D. & Scratcherd T. The effect of intraluminal tryptophan and phenylalanine on small intestinal motility in the conscious dog. 353

Carter D.A. & Lightman S.L. Selective cardiovascular and neuroendocrine effects of a κ-opioid agonist in the nucleus tractus solitarii of rats. 363

Hatcher D.D. & Luff A.R. Force–velocity properties of fast-twitch and slow-twitch muscles of the kitten. 377

Brenner H.R. & Micheroli R. On the neurotrophic control of acetylcholine receptors at frog end-plates reinnervated by the vagus nerve. 387

Birks R.I. Activation of acetylcholine synthesis in cat sympathetic ganglia: dependence on external choline and sodium-pump rate. With an Appendix by K. J. Worsley and R. I. Birks. 401

Muscholl E., Racké K. & Traut Agathe Gadolinium ions inhibit exocytotic vasopressin release from the rat neurohypophysis. 419

Kügelgen I.v. & Starke K. Noradrenaline and adenosine triphosphate as co-transmitters of neurogenic vasoconstriction in rabbit mesenteric artery 435

Chesnoy-Marchais Dominique Kinetic properties and selectivity of calcium-permeable single channels in *Aplysia* neurones. 457

Carlson C.G. & Kriebel M.E. Neostigmine increases the size of subunits composing the quantum of transmitter release at mouse neuromuscular junction. 489

Sims Stephen M., Singer Joshua J. & Walsh Jr John V. Cholinergic agonists suppress a potassium current in freshly dissociated smooth muscle cells of the toad. 503

PROCEEDINGS OF THE PHYSIOLOGICAL SOCIETY

14–15 *June* 1985

St Andrews Meeting

DEMONSTRATIONS

Lamb J.F. & Tenang E.M. A method for measuring cellular and nuclear morphological parameters. 2*P*

Lamb J.F. & Owler D. Isolation of HeLa plasma membranes on microcarrier beads. 3*P*

Aiton J.F., Cramb G. & Wood Rosamonde The use of transformed human lymphocytes to study cation transport and β-adrenoceptor function in manic depressive psychosis. 4*P*

Aiton J.F., Cramb G. & Wood Rosamonde Measurement of intracellular nucleotide content of primary and established cell cultures using reverse-phase ion-pair chromatography. 5*P*

Altringham J.D. & Johnston I.A. Adenosine triphosphatase measurements in skinned muscle fibres from fish using high-performance liquid chromatography. 6*P*

Lakie M., Walsh E.G. & Wright G. Changes in the resonant frequency of a limb induced by artificial changes of stiffness – a feedback method for measuring muscle tension and limb inertia in man. 7*P*

Cruickshank S.G.H., Girdlestone D. & Winlow W. The effects of halothane on the withdrawal response of *Lymnaea*. 8*P*

Chipperfield A.R., Part N.J. & Departmental Staff The combination of a BBC-B microcomputer network and microtext for teaching elementary physiology. 9*P*

Nicol C.J.M. A microcomputer program to determine the composition of solutions containing multiple metal ions and complexing ligands. 10*P*

Green K.A. Use of the BBC microcomputer as a digital storage oscilloscope. 11*P*

Cottrell G.A. & Green K.A. Simulation of single ion-channel activity on the BBC-microcomputer. 12*P*

Hunter M.J. The BBC microcomputer programmed as an e.c.g. display monitor. 13*P*

Hughes G.M. & Tuppen A. Microcomputer analysis of coupling and phase relationships between the cardiac and ventilatory rhythms of fishes. 14*P*

Lamb J.F. A reference filing system based on a commercial database (dBASE 11). 14*P*

COMMUNICATIONS

Kay C.D. & Morrison J.D. The effects of pupil size and defocus on contrast sensitivity in man. 15*P*

Dodwell P.C. & Flanagan P.R. Threshold contrast elevation occurs for patterns generated by Lie transformation groups. 16*P*

Heeley D.W. Retinal image sampling as a limiting process in the visual discrimination of sine-wave gratings in man. 17*P*

Oswaldo-Cruz E., Picanço-Diniz C.W. & Silveira L.C.L. Physiological optics of some Amazon rodents with contrasting life style. 18*P*

Dunn Caroline & Ross Helen E. Gender, the menstrual cycle and visual contrast sensitivity. 19*P*

Blythe I.M., Bromley J.M., Kennard C. & Ruddock K.H. Abnormal prolongation of visual sensations in a human subject. 20*P*

Lines C.R., Milner A.D. & Rugg M.D. Modulation of human visual evoked potentials by selective attention. 21*P*

Chalmers J.H., Morrison J.D., Ogg A. & Reilly J. The effects of ageing on the human visual evoked response. 22*P*

Dutch S. & Parker D.M. Relative latencies for the perceived onset of sinusoidal gratings of different spatial frequency in man. 23*P*

MacKay D.M., MacKay Valerie & Rulon M.J. Local CNVs for different phases of a cognitive task in man. 24*P*

Bryans Cathy, Timney B. & Whittle Elizabeth J. The role of binocular competition in strabismic amblyopia in kittens. 25*P*

Wade N.J. & de Weert C.M.M. Adaptation effects in human binocular rivalry 26*P*

Alvarez Sarah L. & Jacobs N.A. Recovery of visual function in retrobulbar neuritis with drink. 27*P*

Chitty A.J., Head A.S., Jeeves M.A., Milner A.D., Mistlin A.J., Perrett D.I., Potter D.D. & Smith P.A.J. Visual cells selective for body movements: studies of directional tuning and sensitivity to body view. 28*P*

Casco C. & Morgan M.J. Detection of moving local density differences in dynamic random patterns by human observers. 29*P*

Chitty A.J., Mistlin A.J. & Perrett D.I. Somatosensory and associated visual properties of neurones in a polysensory region of macaque temporal cortex. 30*P*

Anderson E., Baudry M., Lynch G. & Morris R.G.M. Selective impairment of learning and blockade of long-term potentiation in rats by an *N*-methyl-D-aspartate receptor antagonist, APV-5. 31*P*

Macphail E.M. & Reilly S. Double dissociation of learning functions within the avian hyperstriatal complex. 32*P*

File Sandra E. & Pellow Sharon The relationship between the corticosterone response to stress and anxiety in the rat. 33*P*

Balfour D.J.K. & Vale A.L. Effects of nicotine on the habituation of rats to an elevated X-maze. 34*P*

Paterson Anna T. & Vickers Colin Reactions to hot-plate pain: effects of sex, strain, light cycle and social factors. 35*P*

Rees H. & Roberts M.H.T. Long-duration antinociception from stimulation of the pretectal nucleus in the rat. 36*P*

Christie D. & Steele Russell I. The role of the corpus callosum in recovery of function following unilateral anteromedial cortex damage in rat. 37*P*

Barbur J.L., Findlay J.M. & Forsyth P.M. Pattern of saccadic eye-movement responses associated with midbrain projections in human vision. 38*P*

Donne B. & Garrett M. Reciprocal inhibition in control of walking in man. 39*P*

Barrett G., Neshige R. & Shibasaki H. Cortical potential shifts preceding voluntary self-paced finger extension in young, old and Parkinsonian subjects. 40*P*

Cole J.D., Philip H.I. & Sedgwick E.M. The effect of small unilateral frontoparietal cortical lesions on digit tremor in man. 41*P*

Cruickshank S.G.H., Girdlestone D. & Winlow W. The action of halothane on central neurones of *Lymnaea stagnalis*. 42*P*

Winn Philip Effects of infusions of D-amphetamine into nucleus accumbens on measures of exploration in rats. 43*P*

Taylor D.E.M. & Tukmachi E.S.A. Effect of blood gases on input resistance of the canine cerebral and cephalic circulation. 44*P*

Cameron Elaine & Spurway N.C. Effects of foreign anions upon vascular responses of the isolated rabbit ear to pH change. 45*P*

Ighoroje Ahbor D. & Spurway N.C. How does vascular muscle in the isolated rabbit ear adapt its tone after alkaline or acid loads? 46*P*

Hicks M.N., Linden R.J., Mary D.A.S.G., Pearson M.J. & Walters G.E. Left atrial receptors and plasma renin activity in the dog. 47*P*
